

Pain Management – Durolane (viscosupplement)

February 2020

MIC Medical Imaging offers pain injections at 9 convenient locations in Edmonton. Patients have the option to purchase **Durolane** directly from MIC at cost. Prices* are: \$120.00 for a 1cc syringe for smaller joints
 \$240.00 for a 3cc syringe for larger joints

Prescriptions for brands other than Durolane, will continue to be injected however patients must purchase these in advance and bring them to their appointment. We continue to provide cortisone injections which are covered by AHS. More information for pain treatment options are available on our website at mic.ca

Patients will be given a Pain Management Results Tracker at their appointment which will assist you in monitoring their progress:

MIC Pain Management Results Tracker

You are the expert when it comes to assessing your pain. Please use this page to record your level of pain using a scale of 1-10 where 1 = no pain and 10 = maximum pain. Circle the number that best describes the pain you are feeling in the affected area.

Keeping track of your results after each procedure and sharing this information with your healthcare practitioner will help us determine next steps for you. It's important to note any changes in your level of pain—even a 1 point difference can be clinically significant.

Pre-injection pain

1	2	3	4	5	6	7	8	9	10
No pain									Extreme pain

Date of injection _____

Post-injection pain

After 24 hours

1	2	3	4	5	6	7	8	9	10
No pain									Extreme pain

Day 7

1	2	3	4	5	6	7	8	9	10
No pain									Extreme pain

One month

1	2	3	4	5	6	7	8	9	10
No pain									Extreme pain

Two months

1	2	3	4	5	6	7	8	9	10
No pain									Extreme pain

Three months

1	2	3	4	5	6	7	8	9	10
No pain									Extreme pain

Six months

1	2	3	4	5	6	7	8	9	10
No pain									Extreme pain

12 months

1	2	3	4	5	6	7	8	9	10
No pain									Extreme pain

Any comments on your level of pain?
