

Preparation instructions for all MRI & CT exams

- Bring your Health Insurance Card and another piece of identification with this form.
- If you are unable to keep your appointment, we ask that you call us 24 hours prior to your examination. We would be happy to re-schedule your appointment.

Preparation instructions exclusively for MRI exams

- Please remove all metal and jewelry prior to your examination if possible.
- **Abdomen and Pelvis** - Do not eat or drink for 4 hours prior to examination.
- **Breast**
 - **Dynamic Breast MRI** (with IV contrast material) to assess breast parenchyma for disease.
 - **Implant Integrity Breast MRI** (without IV contrast material) to assess silicone gel breast implants.
 - **Combined study** (with IV contrast material) to assess both breast parenchyma and silicone gel breast implants through a Dynamic Breast MRI and Implant Integrity Breast MRI.
- **Pediatric**
 - Please note that pediatric patients must be able to remain still for the duration of the examination, as sedation is not provided.

Preparation instructions exclusively for CT exams

- Bring a list of your medications with dosages included.
Take all your medication(s) as directed by your physician. Should you have any questions about taking your medications for the test, contact your doctor's office.
- **CT imaging with contrast requires a serum creatinine (bloodwork) within the past 90 days to evaluate renal function**
- **For any CT exams requiring contrast**
Do not eat solid foods 4 hours prior to examination, and drink plenty of clear fluids.
- **Coronary CT Angiography (CCTA)**
Do not eat solid foods the morning of your exam. You may drink clear fluids. If you normally take medication in the morning, you may continue to do so with clear fluids (*unless otherwise directed by your physician*)

No caffeine the morning of your examination. This includes such things as: coffee (*including decaffeinated coffees*), teas, colas and soda pops, chocolate, Tylenol #1, #2, and #3 (*over the counter Tylenol products may be used*). If you are taking a prescription medication for pain relief, contact your pharmacist to ensure that it does not contain caffeine.

No exercise the morning of your exam.

No barium studies 48 hours prior to this examination.

No erectile dysfunction medications (*eg. Viagra, Cialis*) 48 hours prior to your exam (*applies to both males and females*).
- **CT Abdomen/Pelvis**
Do not eat solid foods 4 hours prior to examination and drink plenty of clear fluids.
- **CT Virtual Colonoscopy**
Our office will contact you to provide preparation instructions and a preparation kit.
